

# **Navajo Abandoned Uranium Mine**

## **Site Screen Report**

*This form is for use at the site of abandoned uranium mines (AUM) located on Navajo Nation lands. Applicable sites include all mine and mine features that have or have not undergone reclamation by the Navajo Abandoned Mine Lands Reclamation Program, including features, adits, pits and waste piles. Applicable sites also include all AUM sites listed in the USEPA CERCLIS database, all sites listed in the 2008 AUM GIS Report issued by USACOE and USEPA, all AUM sites on allotment lands associated with the Navajo Nation, and any and all AUM sites not listed in any database located on Navajo lands. Reconnaissance of any sites located on lands adjacent to Navajo lands that may be impacting Navajo lands will need to be coordinated with the authorities appropriate to those lands.*

*The purpose of the form is to ascertain the status and location of the identified AUM site, and record all immediate site information associated with the mine site. Decisions and recommendations on what additional steps are needed will be provided on a separate document.*

**Mine Name: Charles Huskon No. 12**  
**Mine ID: 119**

**Navajo AUM Western Region**

**Prepared by:**

**Weston Solutions, Inc.**

**Contract: W91238-06-F-0083**

**20074.063.017.0020**

**August 2011**

**Part I Site Identification, Location and Status****Site Names and ID numbers as applicable****Mine ID:** 119**Map ID:** W38**CERCLIS:** NNN000909208**Navajo Abandoned Mine Land Reclamation Program:** NA-0125**Local name / Aliases:** Charles Huskon #12; Huskon #12; Huskon No. 12**Chapter and local area:** Coalmine Mesa**County:** Coconino **State:** Arizona**Lat/Long:** 35.8963409848 N / -111.421279133 W**Nearby road and highway:** US-89 **Local Post Office:** Cameron, AZ**Surface Land Status: check one or more and provide ownership and contact information below**

**State** ☐

**Public lands** ☐  
**Tribal Fee Land** ☐  
**Allotment** ☐  
**Fee land** ☐

**Subsurface Mineral Rights:**

No information on subsurface mineral rights ownership was found in the EPA/AUM Database.

**Claim and operator information:**

The mine surface land status is classified as Tribal Trust Land. Historical documents identified the operator of the mine as Arrowhead Uranium Company in 1954, and Rare Metals Corporation of America from 1956 to 1961. No additional historical ownership / lease information was identified in the EPA / AUM database.

**Number of residential structures within 200 feet of mine:** None

## Part II      Summary of Radiological Readings

**Mine ID: 119**

**Highest gamma radiation measurement:** 999,960 counts per minute (cpm)

**Background Average:** 11,493 cpm      **Two Times Background:** 22,986 cpm

**Describe any other radiological measurements:**

A total of 4,045 gamma radiation measurements were collected from the mine site, ranging from 8,927 cpm to 999,960 cpm. Measurements collected in the vicinity of the waste rock were found at a maximum level of approximately 1,000,000 cpm, and the reclamation area of approximately 200,000 cpm. The measurements are represented in Figures 1 and 2.

### Distribution Chart and Statistics:

<b>Site Gamma Radiation Statistics</b>	
Number of Readings	4,045
Minimum (cpm)	8,927
Maximum (cpm)	999,960
Mean (cpm)	68,893
Median (cpm)	21,109
Standard Deviation	147,074

### **Part III      Status of Reclamation and Mine Waste**

#### **Mine ID: 119**

**The following information was obtained from the Navajo Abandoned Mine Land Reclamation Program (NAMLRP) Point Features Database:**

**NAMLRP Status of the mine site: Reclaimed: Yes      Waste Pile onsite: No**

**NAMLRP Project Number: NA-0125**

**NAMLRP Mine features: 1 Rim Strip / Pit**

---

**The following information was obtained from field observations collected during the 2011 site screening:**

**Provide description and status of all mine sites and features at site. Include all waste piles, adits, pits and other features, and indicate whether they are open, closed, covered, capped, buried or unreclaimed. Indicate approximate size, shape and extent, including description of any reclamation caps. Note condition of all caps.**

#### **Observed reclamation work and status:**

##### **Adits:**

None observed

##### **Waste Piles:**

Waste rock pile, 20'dia x 5'h

##### **Pits:**

None observed

##### **Shafts:**

None observed

##### **Other Debris and Mine Features:**

Possible reclamation cap, grey material

## **Part IV      Site Observations and Environs**

### **Observed Residential Structures (number and human habitation status of structures at the following distances from the mine site):**

**0 to 200 feet:** None observed

**200 feet to 0.25 mile:** Mud structure 350 ft E of site; corral 350 ft N of site; 5 housing compounds within 0.25 mi NE of site

### **Observed Public or Commercial Structures (schools, clinics, Chapter Houses, places of business and any other structures used by members of the community at the following distances from the mine site):**

**0 to 200 feet:** None observed

**200 feet to 0.25 mile:** None observed

### **Levels measured around the perimeter(s) of the identified structure(s):**

Background levels

### **Observed Water Sources (number and type of wells and surface water sources that are potentially used for human consumption at the following distances from the mine site):**

**0 to 0.25 miles:** None observed

**0.25 miles to 4 miles:** Seasonal tributary to Little Colorado River approximately 0.5 mi W of site, Little Colorado River approximately 1.25 mi S of site

### **Sensitive Environments (all sensitive environments located within visible range of the mine site, including: wetlands, endangered species, habitats and approximate locations of sites that may be under protection of the government of the Navajo Nation):**

None observed

### **Known Site History (information from interviews with Chapter officials and residents and database review, includes: mine ownership, type of mining operation, period of operation, known amount of production, and any other information provided):**

The Charles Huskon No. 12 mine claim consists of an area of 52,883.23 m<sup>2</sup>. The mine was identified as being operational from 1954 to 1961. While operational, the mine had a total reported production volume of 1,780 tons. The mine surface land status is classified as Tribal Trust Land. Historical documents identified the operator of the mine as Arrowhead Uranium Company in 1954, and Rare Metals Corporation of America from 1956 to 1961. No additional historical ownership / lease information was identified in the EPA / AUM database.

## **Part V          Response Action Summary**

### **Summary of Evaluation Factors:**

#### ***Accessibility:***

**Was the mine easily accessible to potential human activity?**

Yes

#### ***Radiological Measurements:***

**Were any gamma radiation measurements collected at the mine greater than two times the site-specific background levels?**

Yes

#### ***Waste Piles:***

**Were any unreclaimed waste piles observed at the mine with gamma radiation measurements greater than two times the site-specific background levels?**

Yes

#### ***Structures:***

**Were any structures observed within 200 feet of the mine?**

No

#### ***Potential Drinking Water Sources:***

**Were any potential drinking water sources observed within 4 miles of the mine?**

Yes

#### ***Reclamation:***

**Was the mine reported to be previously reclaimed, or did the mine appear to be reclaimed?**

Yes
